## INTRODUCTION

Central Siberia comprises the following river systems.

1. Ob' river system (page 5):  
rivers Ob' and Irtysh, Lake Zayzan etc.
2. Yenisey river system (page 41)  
rivers Yenisey, Angara, Selenga, Lake Baykal etc.
3. Lena river system (page 61)

Waterways exploited by the Rechflot:

|                      |                           |
|----------------------|---------------------------|
| Ob' river system     | 8,418 km (in 1940)        |
| Yenisey river system | 4,263 km (in 1940)        |
| Total                | <hr/> 12,681 km (in 1940) |

The following navigation companies are operating on the system:

Western Siberian River Navigation Company

Lower Irtysh Ob' river system

Upper Irtysh

Yenisey River Navigation Company

Angara

Yenisey river system

Selenga

Lena River Navigation Company : Lena river system

All these companies are under the Main Administration of River

Transport - Eastern Regions (in Novosibirsk file 204:1)

Reorganization of River Navigation Companies

Following instructions of the Minister of the Rechflot (River Fleet) as of 24 April 1948, the Angara and Baykal-Selenga River Navigation Companies were consolidated into a single company:

The East Siberian Navigation Company

Head Office in Irkutsk

Chief of the Company: Bykov.

The reorganization was to be carried out within two weeks.
